

FOR IMMEDIATE RELEASE

ValuePoint Networks speaks at WISPCON V in Chicago

San Bruno, CA – March 10, 2004 – ValuePoint Networks, Inc. has been selected as a featured speaker at the upcoming Wireless Internet Services Providers Conference (WISPCON V) being held at the Indian Lakes Resort in Bloomingdale, IL, just outside Chicago on March 15-17. The title of the session is “Deploying Wi-Fi in hotels and other large public access networks.”

ValuePoint’s VP of Product Development, Michael Edison will be addressing design and implementation issues of interest to WISPs who are planning and deploying Wi-Fi networks at large hotspot venues. The topics include:

- How do WISPs and system integrators provide 802.11b wireless networking to a 200 room hotel, and make a little money when it's all over?
- Hardware deployment for a public shared-access WiFi networks large and small, including running the HotSpot once it is up.
- Hardware selection, billing and branding, and avoiding support calls.
