NEWS FLASH

Number One Rated Hotels use United Solution and ValuePoint Networks

The top rated Holiday Inn for High Speed Internet Access (HSIA) guest satisfaction uses Value Point Networks' NC-3550 gateway controller and service provided by United Solution.

Guests of the Holiday Inn Williamsburg, Virginia recently ranked it #1 out of all Holiday Inns for HSIA. The Holiday Inn Williamsburg was rated Number 1 in the country in 2007 and continues to be in top 5% today. HMP uses ValuePoint's network hardware and United Solution's HSIA Tech support to achieve this honor.

"These and other hotel properties prove ValuePoint Networks products and United Solution services are an unbeatable combination", says Chirag Patel, President of United Solution. "We are replacing many over-priced providers that charge excessive monthly support fees at hundreds of hotel properties. This is due to our higher service quality, yet we are still lower cost than the competition."

"We are proud that our NC-3550 gateway controller is proving itself over and over again at hotel properties world-wide. We feel it is the superior product on the market for half the price of the competition. But don't just take our word, listen to the hotel brands and their guests." Says David Grissom, Vice President of Business Development at ValuePoint Networks.

ValuePoint Networks and United Solution continue to partner to provide world-class hospitality solutions, combining price leading highly reliable products with top notch installation and service. Please feel free to contact either of us for further information.

United Solution, a technology firm, has expertise in Software Development, Network infrastructure, and Telecommunications, serving clients in the United States and around the world since 2001.
